SOMETHING NEW

In the Adams Express Car Bobbery Case.

Engineer Heffernon Sees o Suspicions Looking fadividual Assisted Into Fotheriagham'a Car-

St. Louis, Nov. 10 .- The only thing naw in the express robbery is the statement of Engineer Heffernan, of the Wabash road, that he saw a stranger get into Messenger Fotheringham's train as it left the union depot here on the night of the robbery, and that the streuger was assisted into the car by some one on the inside. It was on this statetment made before the grend jury that the indictment agoinst Fotberinghum was found. Heffernan's story is as follows: "I was in the union depot in the evening of October 25 oiling my engine. My time to start was 5:25 p. m., hnt just as I was shout to get away I noticed that the Frisco train was neross the mein trock. Of course I could not move until the Frisco got out of my wey. The express car was almost directly opposite my cab window, and I noticed that the door of the car was sta ding open. The messenger and his heiper were inside busy with their duties. It was neerly time for the Frisco train to start, and Dwyer swung himself off the car end went away. A minuta or two leter a man come niong with a value in his band and stopped directly under the electric light and within a few feet of the e gine. He answered Fotheringham's description of the rother ns for as I remember, except that he was a couple of inches or so shorter. He ware his hat well forward over his fee, and I could not make out his features very clearly. He asked me which was the Frisco train, and I poinced the tout to him. It was just moving away, and heran alongside of it until he reached the express cer, the door of which was still standing open (a very unusual thing, by the wey), threw his valiae inside, reached up his iand and was pulled up through the door into the cer. I for could not have junied in without assistance, napecially with the train in motion, and I believe Fotheringham heiped him." Thomas Dwyer's testimony corrolorated the engineer's testimony corrolorated the robbery, is carryling on rather a voluminous of rrespondence for one in his position. THE COMMONWEALTH.

Louisville Leaf Tobacco Market. Western stocks of tobacco was reduced by 8,444 hhds. In October against 9,855 lm October, 1885. The Lonisville stock was reduced 4,820 hhds. and the Cincinnati reduced 4,820 hhds. and the Cincinnati stock hy only 1,578 hhds., though the Louis-ville receipts were the larger. The action of the merket hee been comparatively very healthy, the demand being general and sales being mada et full and nearly aven prices all around. The rapid reduction of stocks and the prospective continuance of the protracted embargo which the weather than been keeping on stocks in country has been keeping on stocks in country barns heve kapt the market in favor of sellers, but not more than to the degree of keeping prices to the outside limits of quotetions. There was a good, steady demand for medium and low grade Burleys at full prices, while the scant offerings of the better grades heve been constantly met with spirited competition. Low and

or suppling kinds with variations in selling favor, and Green redried leaf has also feired better; but for these classes the advence of 25c in prices noticed last week covers the seles of this week. Favorable raporte of the condition of tobacco in barns are being received. We quote 1885 tobaccos as follows for full weight pack-Ages:

As to Purity and Wholesomeness of the Royal Baking Powder.

"I have tested a package of Royal Baking Powder, which I purchased in the open market, and find it composed of pure hid wholesoms ingredients. It is a cream of tartar powder of a high degree of merit, and does not contain either alum or phosphates, or other injurious substances.

E. G. Lovz, Ph.D." "It is a scientific fact that the Royal Baking Powder is absolutely pure. "It is a scientific fact that the Royal Baking Powder is absolutely pure.

"I have examined a package of Royal Baking Powder, purchased by myself in the market. I find it entirely free from alum, terra alba, or any other injurious sub-stance. Hantr Monton, Ph.D., President of Stevens Institute of Technology."

"I have analyzed a package of Royal Baking Powder. The materials of which it is composed are pure and wholesome. S. Dana Harns, State Assayer, Mass." The Royal Baking Powder received the highest award over all competitors at the Vienna World's Exposition, 1873; at the Centennial, Philadalphia, 1876; at the American Institute, Now York, and at State Fairs throughout the country. No taken article of luman food has aver received such high, emphatic, and universal, surfacement from eminent chemists, physicians, scientists, and Boards of licentic all over the world

Note.—The above Diagram illustrates the comparative worth of various Baking Powders, as shown by Chemical Analysis and experiments made by Prof. Schedier. A pound can of early powder was taken, the total leavening power or volume in each can calculated, the result being as indicated. This practical jets for worth by Prof. Schedler only proves what every observant consumer of the Royal Baking Powder knows by practical experience, that while it cals a few cants per pound more than ordinary kinds, it is far more coppositeal, and, besides, affords the advantage of better work. A single trial of the Royal Baking Powder will convince any fair-minded person of these facts.

* While the diagram shows some of the alnm powders to be of a higher degree of strength than other powders ranked below them, it is not to be taken as indicating that they have any value. All alum powders, no matter how high their etrongth, are to be avoided as dangerous.

a Its purpose is solely for the legitimate healing of disease and the relief of pain, and that it does all it claims to do, thousands of ladies can giadly testify. It has stood the test of twenty years in relieving periodical pain, promoting regularity of seasons, and banishing akness, backache and consequent nervous distress. Probably no other woman in the world receives so many "fetters of thanks" as Lydia E. Pinkham, ol Lynn, Mass. Mrs. B—— of Enfield, N. 11., says:
"I will simply say that your Vegetable Compound is all you recommend it to be, It has done me Worlds of good." Another lady writes from Ottawa as follows: "I have just 10-day bought the seventh bottle of your Vege table Compound, have used two boxes of Pills and seve

ersi packages of your Sanativa Wash, and think it but right to tell you hew much good I derived from your medicines. They are a regular God-send. All the pains and aches have almost disappeared, my stomach is much atronger too and I feel myself improved every way." Price \$1. Sold by all Druggists.

THE PACKERS BACK DOWN.

They Reselad Their Resolution to Refuse Employment to Kulghts of Labor, but Will Hold Out for the Ten-Hour Dey— The Stock Yarda Garrisoned by Over a Thousand Armed Men.

CHICAGO, Nov. 11 .- The first overtures toward a settlement of the great strike at the Stock Yards were made quietly yester-day by the packers rescluding the resolution never again to employ Knights of La-hor or union men until they resigned from those organizations. The situation at the yards remained unchanged throughout the day, the action of the pack-ers not having been heard of until late at night. The employes of the large houses were paid off, and this, added to the prevathe hopelessness of their case, was produc-tive of much more goneral intoxication than has yet been noticed, hut not withstanding disturbances were less frequent than on oither Monday or Tnesday. Representatives of all the packing firms

mot in the directors' room of the Board of Trado upon an urgent eall yesterday. The meeting was private, but, like most private meetings of these days, it was only aemi-private. This much became ovident. The chief Knight of Laber representative in the city had met some one of the packers, authorized to speak for all the rest, and there had taken place between them a general discussion of the situation. That discussion had reached a conclusion on two points. One was that the packers at their last meeting had struck a hiow at the whole organization of Knights. The other was that, in turn, the boycott on Chicago meats had been ordered or was about to be. From those two points the two representatives argued out the question. Now there has been two results. One is the action taken

hy the Packers' Association and the other is the action taken by the Knights. At the meeting of the packers yesterdny n series of resolutions was adopted setting forth that inasmuch as the packers had become convinced that the resolutione adopted at n recent meeting declaring that ne man would be employed by them unless he severed his connection with labor organisations were unjust to numerous persons who are members of such organizations, those resolutions should be rescinded, and the following resolutions be adopted as be-ing mere in accord with the mutual in-terest of the employers and employed, to-

WHEREAS. The packers ere confronted with the fact that their employes are repeatedly leaving their employment without notice to them and to the great detriment of their busi-ness, which is of such a nature as to require constant prosecution and careful ettention,

therefore,
"Resolved, That while wo will not exclude from employment the members of such organ lzations, we will exercise the right to employ end discherge whom we please and conduct our business on the ten-hour plan and according to

our best interests." The action taken or yet to be taken hy the head and front of the strikers, it was hinted last night, would be that inasmuch as the packers had recognized the Knights of Labor and rescladed their former resoiution against that order, and innsmuch as the strike had been precipitated by the iocal nutherities against the wishes of Mr. Barry, the chief representative of Mr. Powderly, new in the city, the atrike has been or will be declared off, and nll the old hands ordered back to work. The packers, it has been said, stick to the tonhour principle, this having been conceded to thom on the ground that they will withdraw their hoycott on the Knights of Lahor, the Knights in turn to withdraw thoir proposed boycott on the product of the

Chicago packing houses.

Another view of the case, suggested by friend of the puckers last evening, is that the packers became convinced that their resolution of the previous day was wrong in principle, and that many members of various inhor unions or other organizations. might have paid in money for benove lent or insurance purposes which their resignation would annul. For these reathe resolutions were reseinded

and the new ones substituted.
In accordance with the determination reached by General Fitz Simons Tuesday, a special order was Issued from hrigado headquarters at the Stock Yards that the commanding officer of the First Cavalry de tail one troop of the command to join the two regiments at the yards, the troop to ship their horse equipments and come fully armed and equipped for service, carrying carhines and revolvers with rounds of hail cartridges and twenty rounds of rovoiver In accordance with the order Colonel Jacobs detailed Troop D, consisting of fifty mon under Captain Ole Hough, helonging to his command, and dispatched them to the yards. With this latest addition the hrigado is now complete and fully equipped for any emergency that can possibly arise. The Gntling gun stands in the yard covered with heavy canvass, and under the immediate eye of a guard, ready for use when the call comes, but that is

among the least of the expectations.

The number of men now making it their special husiness to preserve the peace is 1,075, classified as follows:

Brigade officers
First Regiment infantry
Second Regiment infantry Beeond Regiment Infantry

New York. Nov. 11.—The wnolesaie butchers of Washington market say they do not believe that there will be any real do not believe that there will be any real attempt made by the Wostern packers to hring cattle East and then kill them, and in that opinion they agree with the representatives in this city of the Western packers. One wholesale hutcher said he understood that about 300 exen had been killed and dressed in New Jersey this week for a Western packer. The report, however, could not be verified. The men who actually kill and dress the cattle here are all union men, and they will not kill any cattle for the Western packers so long as the strike lasts, and if any wholesale dealers here or any where any wholesalo dealers hore or any where any wholesalo dealers hore or any where East attempts to assist the Western pack-ors by arranging for their cattle to be killed here a strike of all the union hutchers would immediately be ordered. The agents of the Chicago packers say that a car-load of cattle may be killed for Western packers here and there in some of the towns along the route to supply the local trade.
